

Fugro PayData

Enabling fast interpretation for the 27th Licence Round....

Fugro PayData

Data when you need it, how you want it...

The 27th licence round is fast approaching : are you ready? Accelerate your interpretation projects and minimise time wasted on data loading.

How much time does your geoscience team spend trying to load well data from differing datasets of different vintages?

Over and over again a common problem is the length of time spent trying to load data into Petrel*...Expensive, difficult, frustrating...

Here at Fugro we listen to our customers...

In a huge project covering the entire UKCS we have performed exhaustive QC on all available E&A wireline logs, deviation surveys and checkshot data. All CNS/WOS quads are complete; NNS is coming soon with SNS to follow.

Why buy data any other way?

Buy per quad, per block or specific focus area

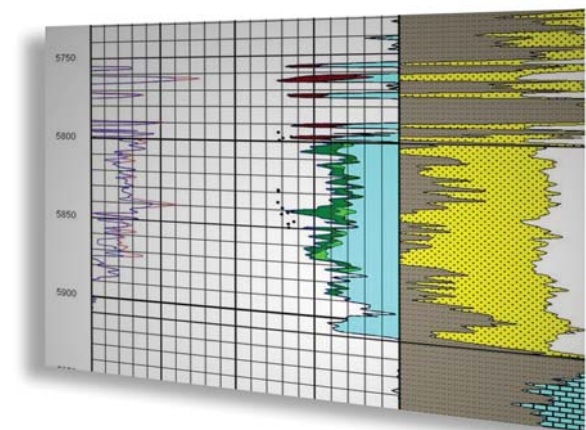

Fugro PayData : Petrel* ready...NOW!
